Interview with etherbox

On-line version: http://etherdump.constantvzw.org/p/machineresearch.interviewwithetherbox.raw.html

Etherbox is the name of a configuration of software and hardware that was in use during the workshop Machine Research. Speaking "in" and "from" the situation, the platform was used to write the Questions and Answers of this interview collectively. Edited November 2016, published in *Machine Research, a peer reviewed newspaper*, Volume 6
